 - Jitter Video
 - Blender (Basic)

experience

Co-Founder & Founding Designer - La Persona
2025 - Present

La Persona is a modern digital ID platform that replaces traditional business cards to streamline professional networking.

- Used early design prototypes, mockup and pitches to secure **4 paying customers** before the platform was even built, proving the business concept and setting the foundation to scale to over **100** users post-launch.
 - **Designed and shipped** V1 of the product, collaborating closely with the lead developer to ensure high-quality execution
- Built the **full brand identity** from scratch, creating a professional and trustworthy presence that attracted early users

Graphic Designer, Remote - APM Help
2024, April - 2026, March

APM Help is a specialized back-office accounting partner providing automation-first bookkeeping and trust audit compliance for property management companies using tools like AppFolio and Buildium.

- Designed pitch decks and digital handouts to simplify complex services for potential clients
 - Created clean, mobile-friendly marketing email templates focused on readability and click-through performance
- Developed a **consistent visual style** for daily social media content across LinkedIn, X, Instagram, and Facebook
 - Designed large-scale booth graphics and printed materials for industry events and conferences
 - **Used AI image tools** to create custom illustrations aligned with brand style guidelines

Digital Designer, Part Time - The Sand Studio
2023, August - Present

The Sand Studio is a multidisciplinary design collective fusing Architecture, Design, Motion, and Code to build innovative, boundary-pushing experiences.

- Designed and launched a full e-commerce website for Krgogoods in 2 weeks, generating **50+ orders** on launch day
 - Partnered with developers to build a custom branded mini-game for a clothing launch, creating an interactive user experience
- Collaborated with the Creative Director to design a distinct mobile-first website experience inspired by vintage Apple UI and e-ink readers
 - Led creative direction and UI design for the studio’s interior design branch website, ensuring a smooth, pixel-perfect launch with developers

Founder & Curator - Duo Design Club (Passion Project)
2025, June - Present

- Founded and curated an Instagram platform showcasing and promoting creatives from **Myanmar**
- **Built and manage relationships** with featured artists, creating a strong cross-disciplinary network for collaborations

ai & creative work

- Create AI-generated visuals for web, branding, and marketing use
 - Write and optimize prompts for different visual styles and outputs
 - Refine AI-generated images through retouching and composition adjustments
- Analyze references and mood boards to match desired styles
 - Experiment with new AI tools and integrate them into workflows
